

No Screen Time Day – Friday 12 February

Origami Crane Sculpture

The term '*origami*' is derived from the words 'oru' (to fold) and 'kami' (paper). However, the name '*origami*' was adopted to make it easier to write it. While many claim that the art originated in China, the Japanese believed it was their contribution to the world.

Challenge:

- Follow the instructions carefully on the video [link](#) to make an origami crane (instructions are on the next slide also). If you wish to create a different origami creature then do so, also you could make more than one.
- When you have made your origami sculpture you should decorate it with images and/or text that express something about your personal lockdown experiences , feelings or ideas.

Share your day of activities and challenges with us at school by sending photos to:

enrichment@croftonacademy.org.uk

Remember to include your name and form.

CRANE TSURU
