

## No Screentime Day – Friday 12 February 2021

### How to make a Coronavirus time capsule

#### You will need:

- A suitable box or container for storage
- Lots of memorabilia
- Tape or string to seal
- Bin bag to waterproof
- An attic or secret cupboard/space for storage!
- Lots of patience (so you don't open your time capsule too soon)

#### What to do:

1. Collect pieces of memorabilia (see list below). Really think about things that would represent traditions and cultural changes of the moment!
2. Place everything safely in the container
3. Secure the container with tape or string
4. Place it in a bin bag or plastic bag
5. Store securely in an attic, basement or secret Harry Potter cupboard
6. Wait 10 years. Can you do it??
7. Open your time capsule in a decade and be amazed at what's inside!

#### Memorabilia to include -

- a local paper with Covid-19 headlines
- something to reflect your beliefs and traditions as a family.
- a 2020 or 2021 dated coin
- a national newspaper
- a drawing of the family including pets, names, ages etc
- memorabilia from a day in the garden or nature
- a note from each family member with memorable events from recent times
- photos of today
- a packet of seeds from 2020 or 2021 (who thinks they'll grow in 10 years?!)
- a letter to yourself including date, age, friends, feelings, favourite things, worries, future plans etc
- a 2020 or 2021 postage stamp
- a painted pebble with the date on
- a letter from a grandparent
- a current magazine

- children's handprints to show how much they've grown
- a couple of bits of clean toilet paper and a hand wipe for humour!
- a mask or face covering
- pressed flowers
- a copy of the Government letter about the pandemic
- photos of family members doing crazy things...

Share your day of activities and challenges with us at school by sending photos to:
